

## **New experiences and test trails for mountain bike enthusiasts at the FSA Bike Festival Riva del Garda**

The countdown is on: just one month left until the long-awaited FSA Bike Festival Riva del Garda! This year's anniversary edition promises gravel adventurers and mountain bike enthusiasts alike not only an impressive array of events but also brand-new tours and test trails. Thus, the festival is guaranteed to be an unforgettable experience.

### **New experiences: eMTB adventure tours, enduro, and downhill experiences**

This year, the FSA Bike Festival Riva del Garda proudly presents the new eMTB adventure tours and the enduro and downhill experiences, specially designed for demanding mountain bike adventurers. Experienced guides will accompany participants on eMTB and enduro tours through the breath-taking landscape of Garda Trentino, showcasing some of the best flow trails in the region. In addition to the thrill of riding, participants can indulge in local culinary delights at various gastronomic hotspots along the way. The downhill experience, set against an impressive landscape, caters to adrenaline junkies who can choose between the Molveno Zone, suitable for beginners, and the Fai Zone, reserved for professionals only. Shuttle buses provide access to the lift base stations, allowing participants to enjoy the downhill experience in true style.

### **Test trails at every turn**

In addition to the guided multi-hour tours, the Bike Festival at Lake Garda offers three exciting test trails. The new Leogang Expo Area Test Trail entices riders with various obstacles such as rock gardens, wooden courses, and small jumps right in the Parco Miralago at the festival grounds.

For those seeking a slightly longer descent and who have already ventured onto the initial trails, the Easy Test Trail provides an excellent opportunity to get a feel for the bikes—a straightforward track through picturesque olive groves and quiet side streets without significant technical challenges. Moreover, the route, with inclines of up to 30%, is ideal for testing the performance of e-motors.

Last but not least, the legendary Brione Test Trail is on the agenda. This well-known trail winds its way through the fascinating landscape of Monte Brione on the northern shores of Lake Garda, traversing olive groves and offering a pleasant blend of nature and vistas.
